

CCX Corp is committed to the responsible sourcing of minerals; sourcing done with an ethical and sustainable manner that safeguards the human rights in our global Supply Chain.

CCX Corp will neither tolerate nor by any means profit from, contribute to or assist with:

- Any forms of torture, cruel, inhuman or degrading treatment;
- Any forms of forced or compulsory labor;
- Child or underage labor;
- Other gross human rights violations and abuses;
- War crimes or other serious violations of international humanitarian law, crimes against humanity or genocide.

The U.S. Securities and Exchange Commission (SEC) requires public companies to disclose their use of tin, tantalum, tungsten and gold (3TG) that originated in the Democratic Republic of the Congo or an adjoining country. Their concern is that the sale of these so called “conflict minerals” could be used to fund or benefit armed conflicts in the region.

CCX Corp is a privately held company and excluded from the SEC requirements; however, CCX Corp still believes it is important to ensure that the 3TG used in our products is responsibly sourced. We will continue to work with our Supply Chain to ensure the metals that we use in our products are conflict-free materials.

Cesar Martinez
